David M. Barry, Jr., Clerk
Monroe County Legislature
410 County Office Building
Rochester, New York 14614

Dear Mr. Barry:

In accordance with Section 303-a of the Agriculture and Markets Law, the Monroe County Legislature submitted to me, by Resolution No. 338 of 2006, a plan to modify Monroe County Agricultural District No. 2.

Following review of the plan and its related documentation, I find that the plan is eligible for districting.

In accordance with the statutory procedures for certification of agricultural district review plans, the Commissioner of Environmental Conservation has determined that the District is consistent with state environmental plans, policies and objectives.

In consideration of my review of the proposal and the determination of the Commissioner of Environmental Conservation, I hereby certify that:

- A. The District is eligible for redistricting.
- B. The District consists predominantly of viable agricultural land.
- C. The plan of the District is feasible.
- D. The District will serve the public interest by assisting in maintaining a viable agricultural industry within the District and the State.

The County is required to complete the next review of Agricultural District No. 2 on or before November 7, 2014.

Signed and Sealed at the Town of Colonic,
County of Albany, New York,
This 25th day of May, 2007

A handwritten signature in cursive script that reads 'Patrick M. Hooker'.

1.0 INTRODUCTION

Article 25AA of the New York State Agriculture and Markets Law, titled Agricultural Districts, provides counties with the opportunity to create agricultural districts for the purpose of protecting and promoting the agriculture industry. Once created, the law requires that each district must be reviewed on an 8, 10, or 12-year basis to see if it is still achieving its intended purpose. In Monroe County, districts must be reviewed every eight years.

Monroe County's Southwestern Agricultural District #2 was created in 1974 as the County's second of five agricultural districts. The District is located in the Towns of Chili, Riga and Wheatland. Its general location within Monroe County is shown in Map 1. A list of parcels comprising the existing district is included as Appendix A.

The report contains an overview of the review process, a listing of proposed district modifications, a discussion of the review factors that are required in Article 25AA for district reviews and the recommendation to continue the District with modifications.

2.0 REVIEW PROCESS

The agricultural district review process is prescribed in Sections 303-a of Article 25AA. The process calls for the agricultural and farmland protection board and the county planning board to prepare a report concerning various factors and make a recommendation to the county legislative body regarding the district. The review is a participatory process that also includes citizens within and adjacent to the district and encourages landowners to review and to provide direct input in the final makeup of the district. It is during this review process that a landowner may request to add land to or remove land from a district. Adding land to and/or removing land from a district results in a modified district. Finally, input is also solicited from town leaders, core farmers, local agribusiness experts and interested citizens.

Agricultural and farmland protection boards are established pursuant to Section 302 of Article 25AA. One of the board's responsibilities is to ensure that agricultural interests are considered during the review process. County planning boards are responsible for representing county and local governments in the review process. The combined expertise of these two boards ensures that a thorough review of the district is undertaken. The knowledge of these boards on the review factors prescribed in Section 303-a enables them to advise the county legislative body on the benefits associated with agriculture, both as a land use and as an integral part of the county's economy.

In summary, participation by all of these various groups enables a thorough examination of the complex and dynamic considerations that must be balanced to allow continued non-farm economic growth while also protecting a valuable, nonrenewable natural and economic resource.

Generally, the process is as follows:

- After receiving notification from the state that the review should be undertaken, the county legislative body publishes a legal notice announcing that the review is underway and that the municipalities in the district and the public have 30 days to submit requests for district modification to the county legislative body.
- Review the needs of the farmers in this area, the development goals and objectives of the municipalities within the agricultural district, and the county's development goals and objectives for the area of the county in which the district is located.

- At the end of the 30-day period, the requests received by the county legislative body are forwarded to the agricultural and farmland protection board and the planning board for review. These two boards use these communications along with the other information gathered to develop a joint recommendation on the district. This recommendation is then forwarded to the county legislative body for action.
- The county legislative body holds a public hearing at a location in the agricultural district to present the joint recommendation and to obtain any final comments. If necessary, the legislative body revises the recommendation following the public hearing and typically acts to modify and continue the district. This recommendation is then forwarded to the New York State Department of Agriculture and Markets (NYS A&M) for district certification. The review process ends when the county receives a district certification notice from the NYS A&M.

Appendix B includes affidavits of publication of the 30-day review Legal Notice, the public Hearing Legal Notice and the public hearing record summary associated with this review process.

3.0 DISTRICT REVIEW

3.1 Proposed District Boundary Modifications

The Southwestern Agricultural District is shown in detail on Map 2; the proposed modifications are highlighted. Parcels that were requested to be added to and removed from the Southwestern Agricultural District are highlighted on Map 2 and summarized in Appendix C.

Upon the completion of the last review of the Southwestern District in 1998, its size was listed as 35,794 acres. The way in which agricultural district parcels are compiled changed often over the past eight years with new directives from the NYS Department of Agriculture and Markets and as the municipalities, the county and the state came to rely more heavily on computerized data and mapping. In addition, 76.7 acres have been added since 1998 as part of the annual addition process described in Section 303-b of Article 25AA, initiated in 2003. Therefore, the size of the Southwestern Agricultural District under consideration for this review is 36,662.8 acres.

The Clerk of the Monroe County Legislature received requests to add a total of 327.8 acres in four parcels to the District and to remove a total of 134.5 acres in three parcels from the District. The modifications result in a net increase of 193.3 acres to the Southwestern Agricultural District for a total of 36,856.1 acres. Table 1 summarizes these modifications.

Table 1. Southwestern Agricultural District #2 Acreage

Municipality	Proposed Modification (acres)		Acreage

TOTAL:	327.8	-134.5	36,662.8	193.3	36,856.1

3.2 Consideration of Review Factors

During the month of August, 2006, the Monroe County Agricultural and Farmland Protection Board (AFPB) and the Monroe County Planning Board (CPB) met to consider the proposed district boundary modifications and the factors in Section 303-a that are required to be included in the review process. The following text represents the results of the consideration of these factors as they relate to the review of the Southwestern Agricultural District.

3.2.1 Agricultural and Farmland Protection Board Factors

1. The Nature of Farming and Farm Resources within the District

The Southwestern Agricultural District Profile is included as Appendix D. As proposed, the agricultural district is mostly field crop operations (corn for grain, forage, hay, wheat, oats and soybeans) and processing vegetables. There are several dairy operations and some horticulture specialty type operations including organic, Christmas trees, garlic, greenhouses, and small fruit; however, these are on a small scale and tend to be either secondary or supplemental forms of support to a farm operator's income. Approximately 80% of the soils found in this district are either prime or unique and well drained as defined by U.S. Department of Agriculture, Natural Resource Conservation Service (USDA NRCS.) However, drainage continues to be a concern within the area due to an annual precipitation rate of almost 37 inches, which provides for ample soil moisture for consistent yields. A large tiling and ditching network exists and continues to be improved upon and requires maintenance.

Large, contiguous and nearby parcels lend themselves readily to production efficiencies and implementation of municipal policy.

2. The Overall Status of Farming, the Farm Economy, and Farm Investment as Evidenced by Information Provided by Farmers

Since the Freedom to Farm Act, several operations have expanded with the result of more acreage put into grain and forage production. A large majority of working farmland is utilized to support dairy operations located within the county and in adjacent counties. A significant number of retired farm families and landowners that inherited farmland continue to rent ground to active agricultural operations within the District. A significant reason for this is to be eligible for agricultural value assessments in order to continue viable ownership of the land. All farmed acreage is farmed by farm families with most families relying on the farm as a primary source of income. Several farmers have either bought land to farm or have made significant improvements to their drainage systems since the last renewal.

3. The Extent to which the Number of Farms and Farm Acres in District Furthers the Purposes for which the District was Originally Created

Agriculture continues to be a predominant and viable land use throughout the municipalities in the District. Quantitative and qualitative data collected through meetings, observations, and interviews with farmers and landowners indicate that the area contains viable farming both within the existing district and in the areas that are proposed for inclusion. Landowners requesting annexation to the district include

active, viable, and support farm land.

4. The Extent to which the District has Achieved its Original Objectives

Development pressure in the form of changes to zoning, sale of single family homes and proposals for extension of water and sewer lines in Riga, Chili and Wheatland are evidenced both in comprehensive plan updates and notice of intents. Since the last agricultural district renewal, nuisance complaints have declined concerning farming operations and have been readily resolved. Farming remains a viable land use as measured by acreage, income, and principle operations within the district. The proposed Thruway interchange as noted in the previous 1998 renewal report was withdrawn with the Agricultural District being identified as a primary reason for its rejection.

5. County Agricultural and Farmland Protection Planning or Implementation Efforts Pursuant to Article 25AA

A proposed county-wide farmland protection plan was adopted by the County Legislature in 1999. This plan includes an inventory, analysis, and recommendations concerning the disposition of agricultural lands throughout the County as well as within the District. The Town of Chili continues to work on an open space inventory in which agriculture is promoted as a use. Chili has also worked with several farm markets to encourage their viability and outreach to the community. The Town of Riga has been engaged in meetings with the agricultural community and interested citizens on promoting and protecting agriculture as a use. The Town of Wheatland has recently updated its comprehensive plan promoting agriculture as a desired land use.

6. Recommendations to Continue, Terminate or Modify District

Based on the strong viability of the current agriculture within the proposed District and continued development pressure, a need still exists to ensure that a favorable climate continues so that land speculation and adverse impacts due to development are minimized or mitigated. Therefore, the Monroe County Agricultural and Farmland Protection Board strongly recommends the renewal and modification of the Southwestern Agricultural District. A copy of the AFPB letter of recommendation is included in Appendix E.

3.2.2 County Planning Board Factors

1. The Effect of District on County and Local Comprehensive Plans, Policies, and Objectives

Each of the towns in the Southwestern Agricultural District -- Chili, Riga and Wheatland -- adopted municipal comprehensive plans in which agriculture is a recommended land use within the District. The intent of the District is both complementary to and consistent with the municipal comprehensive plans. In addition, the District renewal process provides citizens, the agriculture community and local officials the opportunity to discuss and strengthen the impact that the District offers to each municipality.

County Comprehensive Plan

The conceptual plan for the County's development pattern is contained in the Land Use Element of the adopted Monroe County Comprehensive Development Plan. The Element recommends that with the

exception of a limited amount of growth around the Villages of Churchville and Scottsville, the remainder of the area included in the District should be used for farming and rural, non-farm development.

District Capital Improvements

Based on a review of the Monroe County's annual capital improvement programs since 1998, the last time the Southwestern Agricultural District was reviewed, it appears that four capital improvement projects were undertaken by Monroe County and the Monroe County Water Authority in the Southwestern Agricultural District. They were:

Monroe County Department of Environmental Services, Pure Waters

- Pure Waters' Churchville/Mill Seat pump stations and force main: the six-inch diameter Mill Seat force main runs along Interstate I-490 to Churchville and the ten-inch diameter Churchville force main runs along Savage Road and the active railroad tracks to Attridge Road, crossing some District properties.

Monroe County Department of Transportation

- Attridge Road Culvert replacement (BIN 3361670), completed 2002
- Attridge Road Bridge replacement (BIN 3317880), scheduled completion 2008

Monroe County Water Authority

- Water mains installed in or adjacent to the District since 1998 are summarized in Table 2. Two lines, totaling 9,725 feet, were Monroe County Water Authority projects. The New York State Department of Conservation had three projects, developers had two projects and Genesee County had one project; however, the majority of linear feet of water line added to the District were the result of town sponsored projects.

The following projects are proposed to be undertaken in or adjacent to the District during the next eight years:

Monroe County Department of Environmental Services, Pure Waters

- Village of Scottsville potential pump station and force main project: the conceptual project includes a 14-inch diameter force main running along Route 253 across District properties (to the Genesee River) to Pure Waters' Riverton pump station.
- Town of Chili sewers on Scottsville Road: the Town and a developer have expressed interest in installing sewers south of the existing Pure Waters District along Scottsville Road within District.

Monroe County Department of Transportation

- The Monroe County Department of Transportation currently has no projects planned within the District as per the proposed 2007-2012 Monroe County Capital Improvement Program

Monroe County Water Authority

- The Monroe County Water Authority is not planning to build any new facilities in the District in the next eight years; however, it is likely that there will still be water districts forming and developers extending mains.

Municipal Comprehensive Plans

The comprehensive plans of Chili, Riga and Wheatland were discussed and reviewed with personnel from each municipality regarding their consistency with the purpose and intent of the District. All plans recommend that the vast majority of land included in the District as well as the proposed additions, remain rural with agriculture and low density residential as the preferred land uses. Additionally, each plan contains policies designed to retain and support agriculture as the principal land use in the District.

Although Wheatland's plan recommends the continuation of farming and maintenance of the rural character throughout the vast majority of the District located in the town, the plan takes into account the possibility of development within the District and indicates that if it were to occur, that it would be a business/industrial mix.

The Town of Chili is doing a very brief update to its plan. Currently, the Chili update supports the continuation of agriculture in the District. The Town of Riga is also updating its plan but anticipates no changes to the plan's current recommendation that the area involving the District remain rural and agricultural in nature.

The district has had a positive and mitigating influence on municipal and county comprehensive plans, rules, regulations, ordinances and laws as they relate to land use recommendations and implementation of municipal policy.

When public road, sewer, and water projects traverse farmland, the District's regulations encourage oversight and tend to place limitations and conditions on these projects that help mitigate adverse impacts on affected lands. Thus, in this context and from an agricultural perspective, the District has had a significant and positive influence on capital improvement projects.

Although public water projects continue in the District, historically, the presence of public water has not been a significant impetus of development in the County and this District. However, sanitary sewer is much more likely to attract and influence the nature of development, especially if the sewer line is a gravity line versus a force main line. Thus, the expansion and nature of sewer lines within the Town of Chili is likely to have an adverse impact on nearby farmlands. However, nearby farms may be able to capture the potential demand for locally grown agricultural products that these expected developed uses may bring.

The presence of the District and active farm operations has resulted in agriculture being a recommended land use in each of the municipal comprehensive plans and, in this context, the District has had a positive influence on these plans. And although agricultural district regulations call for municipal planning to be consistent with the intent of the agricultural districts program, at times, municipalities plan and zone land for nonagricultural uses in districts.

2. The Impacts of Non-Agricultural Development in District

In all towns, the prevailing non-farm development pattern in the District has been predominantly single family homes along road frontage. This pattern tends to be prevalent in all other districts in Monroe County and is associated with an increased likelihood of nonfarm neighbor complaints about farming practices. As noted above, there have been several complaints but they have been resolved based on

mediation and reference to agricultural districts law and opinions. Riga continues to require a disclosure notice which helps to provide early notification to nonfarm neighbors that they are likely to experience effects from farming operations, thereby, helping to minimize complaints.

The Town of Chili anticipates expansion of water and sewer lines along Scottsville Road and into areas within or adjacent to the District is likely to exacerbate and influence the nature of development and potential conflicts and threats to nearby farm lands. Several horse farms within the Town of Chili are for sale at the time of this report with intentions for development.

The Town of Wheatland anticipates additional single-family residents, however, the rate and level of development has been well below that of adjacent towns and counties. Wheatland is exploring extending sewer lines from the Village of Scottsville sanitary system. Scottsville is in the process of considering improvements and possible expansion to its wastewater treatment facility or merging with Monroe County Department of Environmental Services, Pure Waters Division.

There have been a total of 21 rollback penalties affecting 340.10 acres in the Southwestern Agricultural District since 1998:

- 6 rollback penalties in the District in Chili totaling 50.17 acres;
- 14 rollback penalties in the District in Riga totaling 168.93 acres; and
- 1 rollback penalty for two parcels in the District in Wheatland totaling 121 acres.

Although the level and rate of nonfarm development has been “low” when compared to other agricultural districts, nonfarm development continues to impact and threaten the viability of farming within the District. Nonfarm development in agricultural districts should be monitored and opportunities for mitigation should be identified as part of the implementation and update process for farmland protection plans and municipal comprehensive plans.

3. The Degree of Coordination between Local Laws, Ordinances, Rules and Regulations that Apply to Farm Operations in District and their Influence on Farming

With one exception, all of the zoning districts that apply to land in the District permit farming. The exception is the Mobile Home Park district in Riga but it only encompasses the fully developed mobile home park and, thus, does not include any land that could otherwise be farmed. Riga is actively seeking community input through meetings and ad hoc committees regarding consistent and reasonable policy regarding farmland protection and promotion. The town is in the midst of updating its comprehensive plan, with agricultural being emphasized as a viable use. Consequently a right to farm law and several other supportive ordinances and laws are expected to be considered over the next several years.

Municipalities have indicated that they continue to use the Agriculture Data Statement (ADS) to assess the impacts of potential nonfarm development proposed on land which is part of an active farm in the District or is proposed for land within 500 feet of an active farm in the District. The municipal board reviewing the proposed nonfarm development must determine, based on information provided in the ADS and by adjacent farmers, whether the proposed development will conflict with present and future farming operations and if so, determine appropriate mitigation measures.

4. Recommendations to Continue, Terminate or Modify District

The District continues to provide benefits to member farmers who wish to continue farming. Therefore,

in order to help maintain the viability of farming operations and to reinforce plan recommendations and current regulations which promote agriculture in this area of the County, the Monroe County Planning Board strongly recommends the renewal and modification of the Southwestern Agricultural District. A copy of the MCPB letter of recommendation is included in Appendix E.

4.0 RECOMMENDATION TO CONTINUE, TERMINATE OR MODIFY DISTRICT

Notwithstanding the proposed changes to plans and zoning which will promote a nonfarm development pattern in a portion of the District, the District continues to provide benefits to member farmers who wish to continue farming. This fact is underscored by the proposed addition to the District of 327.8 acres of active farmland and a net increase of 193.3 acres. Therefore, in order to help maintain the viability of farming operations and to reinforce plan recommendations and current regulations which promote agriculture in this area of the County, the AFPB and the MCPB recommend the renewal and modification of the Southwestern Agricultural District #2.

After considering the proposed district boundary modifications and the review factors listed in Section 303-a of Article 25AA, Monroe County recommends the continuation of the Monroe County Southwestern Agricultural District #2 for another eight years with the following modifications:

1. Add four parcels containing 327.8 acres to the existing District as follows: 239.9 acres in four parcels in the Town of Riga, and 87.9 acres in one parcel in the Town of Wheatland.
2. Remove three parcels containing 134.5 acres from the existing District as follows: 124.0 acres in two parcels in the Town of Riga and 10.5 acres in one parcel in the Town of Wheatland.

The recommended net modification to the District is an addition of 193.3 acres which would result in the Southwestern Agricultural District having 36,856.1 acres. Based on the environmental review for this action (see Appendix F), there are no significant adverse environmental impacts associated with the modification of the District and an environmental impact statement was not required. The Monroe County Legislature's resolution to renew and modify the District is included as Appendix G.

NOTICE OF PUBLIC HEARING BEFORE THE MONROE COUNTY LEGISLATURE

EASE TAKE NOTICE that in accordance with Article 25AA of the NYS Agriculture and Markets a public hearing will be held by the Planning and Economic Development Committee of the Monroe County Legislature on Monday, November 27, 2006 at 6:30 PM at the Riga Town Hall, 6460 E. Buf-Road, Riga, New York, regarding the eight-year review of the Monroe County Southwestern Agricultural District #2 -- located in the Towns of Chili, Riga and Wheatland. The public hearing is being to give the public an opportunity to comment on the following: the existing District; the proposed modifications (being the written amendments proposed during the thirty day review period); and the recommendations of the Monroe County Planning Board and the Monroe County Agricultural and Farmland Protection Board.

The existing Southwestern Agricultural District occupies portions of Chili, Riga and Wheatland. The modifications proposed to the Southwestern District result in a net increase of 193.4 acres for the District. The modifications include the addition of four parcels containing 327.8 acres: three parcels in Riga totaling 239.9 acres and one parcel in Wheatland totaling 87.9 acres. The modifications also include adding three parcels containing 134.5 acres: two parcels in Riga totaling 124.0 acres and one parcel in Wheatland totaling 10.5 acres.

The Monroe County Planning Board and the Monroe County Agricultural and Farmland Protection Board reviewed the District and the proposed modifications and recommend that the District be continued with the modifications proposed.

A general map of the existing District and proposed modifications are provided with this notice. A detailed map of the existing District and proposed modifications may be examined in the Office of the Clerk of the Monroe County Legislature, 407 County Office Building, 39 West Main Street, Rochester, New York. A report that describes the current status of the District and the recommendations of the Monroe County Planning Board and the Monroe County Agricultural and Farmland Protections Board regarding the District's continuation and modification may also be examined in the Clerk of the Legislature's office.

If continued and modified as proposed, the Monroe County Southwestern Agricultural District #2 would contain approximately 36,856.2 acres.

All parties of interest and citizens will be heard at the Public Hearing.

AGRICULTURAL AND FARMLAND PROTECTION BOARD AND COUNTY PLANNING BOARD RECOMMENDATIONS

**Minutes of the Monroe County Agriculture and Farmland Protection Board
August 24, 2006**

Present: B. King, T McManus, P. Johnson, S. Chase, M. Greene, B. Wilkins, J. Adair

Excused: M. Krenzer, M. Bickweat, T. Murphy, R. Brand, J. Moore

The meeting started at 7:35 p.m. with Jeff Adair presiding.

Approval of minutes: The March minutes were approved, moved by Wilkins, seconded by McManus, motion carried.

Public forum: None

Matters for preliminary and final approval: Greene moved to approve the requested additions to the 30-day annual addition for ag districts, seconded by Wilkins, motion carried. Chase moved to approve the final report for the renewal of the Southwest Ag District, seconded by Adair, motion carried.

Informational matters: King gave an update on the Cobia complaint. NYSDAM has sent a letter to the town indicating that the Town law as it relates to dogs on farms was unreasonably restrictive.

King shared with the Board numerous complaints that he has been working on. Since January, he has 16 complaints from landowners, farmers and neighbors. Problems range from permitting, spraying, drainage, signage, smells, benefits district, and noise. All except three have been resolved.

The public hearing for the 30 day add period was held on August 21, there was an objection to the add of the Steven's parcel. The objection arose that if the parcel were added to an ag district, the state law would supersede the jurisdiction of the Town to require an agricultural landowner to be required to obtain a permit to run a landscape maintenance company. Information was given at the public hearing that ag district law does not supersede town law, and that the land met the definition of viable farm use to be included in the agricultural district.

The SW Ag district had a public information meeting in June and the final report has been approved by CPB, pending any further requests. The report is now ready to go to legislature for approval. Any additional requests will be forward to both AFPB and CPB.

King visited with the Town of Hamlin to provide suggestions to the update of their comprehensive plan. King reviewed with the town problems experienced within the county and suggested the town review their codes to ensure consistency and avoid future conflict.

King shared that he has further reviewed the Town of Ogden's open space/update comprehensive plan. The Town of Chili and Riga are doing brief updates to their plans. Town of Wheatland did an update but there were no significant changes as it related to agriculture.

Monroe County Planning Board Meeting Minutes

A meeting of the Monroe County Planning Board (MCPB) was held August 24, 2006 at 3:30 PM at CityPlace, 50 West Main Street, Rochester NY.

Members Present: William Carpenter; C. Stephen Eckel; Linda Faubel; Tom Ferraro; Mike Garland; Jerry Helfer; Bonnie Pedrick-Coles; Anthony Radogna; Carolyn Rapp; William Santos

Staff Present: Rochelle Bell, Paul Johnson; Kathy Mahns

Others Present: Tracy Logel, Jeron Rogers, Town of Chili; Bob King, Monroe County Cornell Cooperative Extension; Anthony Feroce, Monroe County Office of Management & Budget

Ms. Pedrick-Coles called the meeting to order at 3:30 PM. July 27, 2006 meeting minutes were approved as submitted.

ACTION ITEM

Review and Recommend Additions to the Southwestern Monroe County Agricultural District – Bob King, Cornell Cooperative Extension; Rochelle Bell, Monroe County Department of Planning & Development

Bob King gave an informative overview of the Southwestern Monroe County Agricultural District. Copies of the Southwestern Agricultural District map and 2006 Modifications to the District were distributed. There have been requests to add 312.5 acres to the district, and 50.0 acres to be removed from the district. With 2006 modifications, there is a net addition of 262.5 acres to the district.

In response to issues raised by Board members, Bob King discussed the following:

- Farmer's rights against nuisance suits as a result of farming operations if they are part of an Agricultural District;
- Parcels can be included in a district every year during a 30 day window in March/April, and removed every eight years during renewal;
- There are five agricultural districts which are renewed every eight years: 1) Southeastern District; 2) Southwestern District; 3) Northeastern District; 4) Northwestern District; and 5) Midwestern District; and
- Parcels are generally 5-10 acres and gross roughly \$1,000 per acre. Some crops such as garlic and strawberries can gross as much as \$20,000 per acre.

Bonnie Pedrick-Coles made a motion to recommend additions to the Southwestern Monroe County Agricultural District. William Carpenter seconded the motion, which carried unanimously.

ADJOURNMENT

The meeting adjourned at 4:14 PM. A tour of the Public Safety Training Facility followed the meeting.
